A view of the new interior lobby.

A view of the completed exterior.

A view of the new science labs.

## Project Scope:

The Verona Board of Education was looking to renovate the existing auditorium, cafeteria, art room, and five (5) science classrooms. They also wished to construct new BOE offices and reclaim the existing board offices as classroom space. The resulting addition provides a new circulation connection between the existing science wing and the rear classroom wing. The new Board Office Area was given a more formal sense of entry, through the use of a curved clerestory roof above.

In addition, storage space was added to the music room and stage areas. New seating, sound booth, flooring and sound attenuation were provided at the auditorium, giving it a much-needed upgrade. The science rooms were renovated and brought up to current curriculum and barrier-free standards. Additionally, by filling in an underutilized exterior patio, the cafeteria was able to be expanded.

## Services Performed:

- Boundary, Topographic and Utility Surveys
- Geotechnical Investigations
- Environmental Studies
- Architectural Design & Construction Documents
- Civil, Structural, Mechanical & Electrical Engineering
- Cost Estimating
- Construction Administration & Observation

## Program Highlights:

- 7,600 sf Addition
- Renovations to (5) Science Classrooms, Art Room & Auditorium
- Conversion of Board of Education Offices into (3) Classrooms
- 1,400 sf Addition/ Expansion of Cafeteria
- 960 sf Addition to Music Department Storage
